

JOB TITLE: Supply Chain Manager

Skyline Solar is a product company that makes concentrated photovoltaic systems for sale to power plant Developers and EPC Firms. Our mission is to lead the industry to subsidy-free grid parity with integrated and highly scalable solutions. Fulfillment of our Customer's needs is through the use of a highly responsive and flexible supply chain that provides tangible financial benefits to the Company, our Customers and Investors through extremely high velocity material movement. The Supply Chain Management Team is at the center of this strategy and has a direct impact on organizational success.

The Supply Chain Manager will be responsible for the following:

- Ensure availability of an uninterrupted supply of critical components from the strategic supply base.
- Lead the price and contract negotiation activities for assigned suppliers. Drive contracts to closure and manage supply contracts to ensure Skyline captures all beneficial opportunity.
- Establish mechanisms to develop and maintain industry appropriate pricing targets for assigned commodities.
- Coordinate and lead periodic formal business, technical and quality reviews to ensure Supplier accountability and provide a communications forum for all appropriate Skyline functional areas.
- Coordinate and lead Supplier visits/audits on an annual basis using appropriate functional expertise from the Skyline Materials, Engineering and Quality functions.
- Create and report on a monthly basis, both internally and to the Supplier, report cards of supplier performance. Maintain supplier relationship maps, data sheets and score cards.
- Assist in the identification and development of new suppliers and their capabilities as needed to achieve product performance and cost targets.
- Define necessary key process indicators and establish appropriate operational goals.
- Other tasks as may be assigned from time to time.

Requirements:

- A minimum of 3 years of experience as a transactional Buyer and 5 years experience in Materials Management as a Materials Manager, Supply Chain Manager, Contracts Administrator or Purchasing Manager, preferably within the alternative energy industry.
- Strong negotiation skills and a good understanding of the legal dimension of contracts, experience driving supply contracts to closure and in contract management for high volume supply chains.
- Detail oriented with a systems outlook. Good analytical and structured problem solving skills.
- Demonstrated success in influence management across an organization as necessary to accomplish required goals.
- Effective communications skills across all levels of the internal and Supplier organizations.

Preferred Qualifications:

- BS degree in Materials Management or Operations Analysis.
- Experience dealing with global suppliers in Europe and Asia.

We offer attractive compensation and a benefits package designed to reward you for your hard work and performance. Our benefits include competitive base pay, bonus, paid time off and health and welfare benefits such as medical, dental, vision and 401K.

At Skyline Solar we consider the environmental impact of our business decisions whenever possible. To minimize paper waste, we request that all candidates send resumes via our website. Please apply online at www.skyline-solar.com.
